

## HISTORIC MAPS OF DERBY

*Derby 1815 - Chellaston 1804 - Littleover 1840  
Mickleover 1843 - Normanton-by-Derby 1769*

*These unique maps of 'Old Derby', researched and illustrated by artist and historian Kevin Archer, for the first time in over two hundred years allow one to see the city of Derby and the villages close by, as they were, when your ancestors lived and worked here.*

*Enclosure Maps, Town Plans, Tithe Awards, Census Returns, Commercial Directories and Gazetteers have been studied, and the maps re-drawn using all the additional information, in a style contemporary with the period and as close to the original source as possible.*

*These maps depict a world 'long forgotten', before the small villages surrounding the town were 'swallowed up' during the Industrial Revolution one hundred and fifty years ago.*

*Ancient field names, the old streets and country lanes, landlords and tenants, farms, mills and houses (of the rich and the poor), pubs and ale houses, all are included here to enrich your knowledge of your local history and heritage.*

*These maps are 'a must' for anyone interested in local history or the map enthusiast. Framed, they make an ideal present.*

*The maps are available, from the artist in various sizes, priced from £10 upwards.*
